

This is a small tool that allows you to activate Office 2010 on a KMS server. Please read the information in the text file. The program is very simple and does not have GUI, you must have .NET Framework installed on your computer.

Walkthrough: 1) Open Command Prompt as an administrator from Start Menu\Programs\Accessories\Command Prompt, right-click it and select Run as Administrator 2) In Command Prompt window type "cd C:\\" then press Enter key 3) Type "msiexec /a office2010.msi OFFICEID="" OFFICE2010-KMS-Options " /qb TARGETDIR=L:\\" then press Enter key 4) Copy the activation.xml file to L:\Offices2010 5) Close Command Prompt window 6) Open Office 2010, go to Help>About\License, you can see that it is activated. If you have Office installed on non-KMS machine(single install), just copy the activation file to %LocalAppData%\Microsoft\Office12 directory. Or if Office is installed on multiple computers or your machine is not Domain Controller, copy it to %localappdata%\Microsoft\Office 14 directory.
